RE: Announcement of Electronic Case Filing Seminars for the Bar and their Staff

I. <u>Introduction</u>

For over a year, the Alexandria Division has been participating in a Pilot Electronic Case Filing (ECF) Program sponsored by the Administrative Office of the U.S. Courts. This program has been well received and we are planning to expand the ability to use it to the other divisions during the summer of this year. It is anticipated that an ECF based system will eventually replace our current case management program. When that happens, attorneys will then be required to file petitions, pleadings, and most other documents in an electronic format.

So that attorneys and their support staff may become more familiar with the program, its uses, specific computer system requirements, and hear a discussion of our plans, the Court will be providing two ECF Fairs co-sponsored by the Tidewater Bankruptcy Bar Association and the Bankruptcy Section of the Richmond Bar Association. The first will be held on Wednesday, February 17 at the Norfolk Waterside Marriott and the second on Thursday, February 18 at the State Library of Virginia, Richmond. There is no registration fee or cost to attend. Below is the proposed agenda for these events. A registration form can be found on the back of this announcement as well as on the court's web site at: www.vaeb.uscourts.gov. Space may be limited, so sign up early. Registration will also be available on the day of the event.
